 My Portfolio

I am a Computer Science student at UNLP and a Full Stack Developer with a strong focus on backend development using Java, Ruby and Python. Passionate about problem-solving and continuous learning.
I am eager to contribute my technical skills and enthusiasm to innovative projects while continuously enhancing my knowledge in the field.

SKILLS

Java - Spring

Ruby on Rails

Django

Docker

Git

Design Patterns

Postgres - MySQL - MongoDB

React

Scrum / XP

PROJECTS

Truequetools 2024 - 2024

Truequetools is a bartering application. It manages product exchanges in a hardware store setting, with a backend built using Django Rest Framework (DRF), and React, to handle users, products, and requests.

Tranked 2024 - In Progress

Tranked is a Ruby on Rails collaborative project designed to review songs, albums and artists in the community, inspired by Letterboxd.

LANGUAGES

Spanish - Native

English - B2

Portuguese - C1

EDUCATION

Mariano Moreno Technical School

Chivilcoy, Buenos Aires, Argentina.

Complete secondary level in Computer Science Orientation.

National University of La Plata - Computer Science

La Plata, Buenos Aires, Argentina.

Analyst in Information and Communication Technologies

Some of the things I have studied throughout my career: Software Engineering, Database Design, OOP, Agile Methods, Python, Software Quality, Concurrent Programming, Networks, and OS Basics.
